Subject: Reminder about NC WARN Demographic Survey!

Building People Power for Climate & Energy Justice

Membership Survey

Thanks to everyone who has responded -- either by mail or online -- to the demographic survey we sent last week. The response has been great!

**If you haven't already responded, please do so by
next Thursday September 28th.**

You can either return the paper survey in the mail or complete the survey online here: www.surveymonkey.com/r/RR6FNRH

We need a climate justice movement that reflects the interests of all North Carolinians. To that end, we want to make sure our membership and allies reflect the population of North Carolina by 2020 and get some basic demographic information about NC WARN members and supporters. The survey results are anonymous.

Please fill it out and return it to help us track our progress toward this goal. An initial survey was done in 2015 and this is the first follow-up.

Please only complete one version of the survey (mail or online). If more than one person in your household is an NC WARN supporter, each person may complete the survey. Please do not share the survey link, as that would skew our results.

**Thank you for your cooperation and, of course,
for your ongoing support!**

Now in its 29th year, NC WARN's mission urgency is to induce Charlotte-based Duke Energy – one of the world's largest corporate utilities – to make a strong shift to clean, affordable energy in order to stem pollution's damage to communities, and to help avert climate tipping points and ongoing rate hikes.
